

Polar Bear's Ice Lab

Circle what happens when ice gets warm!

Name _____

_____ Date

Polar Bear's Ice Lab

Circle what happens when ice gets warm!

A. LIQUID WATER

B. ROCK

C. LARGER ICE CUBE

My melting prediction

Draw your ice cube AFTER a sunny hour!

For grown-ups

~~Warm ice melts into LIQUID WATER. (Not a rock — rocks were never ice. Not a bigger cube — melting makes things smaller.)~~
